

SWISWHITE

BIO WHITE CREAM

Discover a high-performance line of expert anti-dark spot skincare products to even out and brighten up the complexion. The skin looks visibly lighter and radiant. This soft and silky smooth texture cream improves skin appearance, skin elasticity and eliminates dark spots

Bio White Cream Benefits

- Deliver maximum powers to correct yellowish, dull and uneven skin tones.
- Even out the complexion and help reduce the appearance of pigment spots.
- Prevent the formation of new pigment spot.

Main Active Ingredient

Citrus Limonum (Lemon) Fruit Extract

- Lighten the skin
- Anti- bacteria & Anti oxidant
- Minimize pores
- Overcome oily skin

Rapeseed Extract

- Rapeseed oil contains the fatty acids most suitable for the skin.
- Hydrates the skin by retaining moisture for 24 hours thus optimizes the skin's moisture retention ability.
- Works synergistically with the skin's natural protective layer
- Anti-ageing effect.

Vitamin C

- Lighten the skin
- Reduce and remove acne scar
- Helps new cell growth

Vitamin E

- Reduce wrinkle
- Smoothen the skin
- Moisturize the dry skin

Blueberry Leaves Extract

- This is basically a plant-derived skin whitening ingredient, which is definitely a much safer alternative to hydroquinone but has the same exact skin whitening effect.
- Accelerates skin brightening and strengthens skin's defenses against future discoloration.
- Against melanin formation and the deposit of pigmentation

SPF25

- As a protector of ultra-violet rays.
