Q&A

Hydrating Toning Lotion suitable for all skin types?

Yes. It is rich in collagen, can instantly produce moisturizing and lifting effect.

How to use Hydrating Toning Lotion?

Normal skin: After cleansing hold the spray about 12 cm away and spray 4-5 times onto the skin.

Sensitive skin: Recommended to use our Stemcell Essence as a base, spray Hydrating Toning Lotion onto the palm, and apply on whole skin.

Oily & congested skin: Spray on a damp cotton pad, wipe gently on whole skin.

What causes itchiness and pimple after Hydrating Toning Lotion?

Itchiness: This situation usually occurs in dehydrated skin, dry skin. Collagen, will eventually increase the skin metabolism, therefore, skin will have reaction such as itchiness. Please continue using Hydrating Toning Lotion, as the itchiness will disappear after a short period.

Pimple: Usually happens to oily skin with active sebaceous glands; or weak absorption which leads to excess nutrient to the skin. It is recommended to reduce the usage to once a day. Spray on the palm, and wipe gently on whole face.

You can spray the other parts of your body as well; it can make your skin smoother and give lifting effect.
